“Often there’s a lot of technology that comes out of the US or certain locations that’s very US-centric. But as soon as you go into different time zones and currencies, it gets hard, and you end up celebrating birthdays on the wrong day and getting notifications for anniversaries on the wrong day, which is really frustrating.”

4. Can BambooHR streamline and automate core HR processes to reduce workloads?

In dynamic companies, core **HR tasks** must be efficient and pain-free to save precious time and minimize employee frustration.

As the company hires remotely, HR needs to build processes encompassing the company culture and letting people feel heard and included. Daily HR tasks like onboarding and time management can become repetitive and time-consuming, taking HR away from other valuable tasks that need to get done.

A good HCM should automate and expedite core tasks that take HR away from bigger impact programs and allow employees to connect to everything the company offers. Answer the question below for Bob vs. BambooHR to prioritize your HCM needs.
